

# **Standard on Categories of Observation Instruments of Exclusive Observation Stations Obligatory for Calibration**

Promulgated date: March 12, 2004

## **Article 1**

This Standard is enacted in accordance with the terms in the fifth paragraph of Article 20, Meteorological Act.

## **Article 2**

The categories of observation instruments of exclusive observation stations obligatory for calibration are as follows:

1. air pressure;
2. temperature;
3. humidity;
4. precipitation;
5. wind direction;
6. wind speed;
7. sunshine duration; and
8. solar radiation.

## **Article 3**

This Standard shall become effective on the date of promulgation.
